Public Consultation Period – Goring High Street Traffic Calming

Any objections or other representations on the proposal should be submitted by Friday 28 August 2020

Here is a copy of the consultation email from OCC:

We are writing to seek your views on the proposals to introduce traffic calming measures on the B4009 High Street in Goring-on-Thames, which are being proposed in order to improve road safety within the town Centre. Specifically the proposals include the construction of; a) a full-width flat top hump (raised informal crossing point) to be located approximately 40m east of Manor Road, and b) a build-out feature (with accompanying bollards) at the existing give-way markings outside 'The Arcade', which will narrow the carriageway to 3.25 metres. The following consultation documents are available:

The proposed Traffic scheme details are available to view on Oxfordshire County Council's consultation pages at the address below (where you can make your response):

This follows a public consultation by Goring Parish Council in June 2017. They received the proposed scheme drawings and passed them to OCC Highways for their approval in January 2020. This was reported in [Genie Village Matters No 55](#) on 30 January 2020.
